## Wheat

---

### Bolles

*Welter Seed & Honey Company      Jones County      (563) 485-2762*

Bolles is a hard red spring wheat released in 2015 by the Minnesota Agricultural Experiment Station. Bolles is a high protein spring wheat, very good yield potential, and good test weight. Bolles has excellent leaf rust resistance and moderate rating for scab and bacterial leaf streak.

### Expedition

*Welter Seed & Honey Company      Jones County      (563) 485-2762*

Expedition is a hard red winter wheat released in 2002 by the South Dakota Agricultural Experiment Station. Expedition is an early maturing variety with white chaff color, good winter hardiness, average yield, and above average test weight. It has fair lodging and excellent baking quality. Expedition is a PVP title V protected variety.

# Oats

---

## 126

*Taylor Seeds*

*O'Brien County*

*(712) 261-2345*

126 is a delayed heading oat and much of its forage mass and quality come from an extended maturity. 126 was developed by ProGene Plant Research, and shows resistance to rust and other leaf and stem diseases and is susceptible to barley yellow dwarf virus. 126 resists lodging, and is high yielding.

## Deon

*Taylor Seeds*

*O'Brien County*

*(712) 261-2345*

*Welter Seed & Honey Company*

*Jones County*

*(563) 485-2762*

Deon is a high yielding spring oat with overall good agronomic traits and released by the Minnesota Agricultural Experiment Station in 2011. Deon has resistance to crown rust, smut, and barley yellow dwarf virus. Deon is a PVPA protected variety.

## Horsepower

*Cornelius Land & Cattle LLC*

*Jackson County*

*(563) 672-3463*

*Welter Seed & Honey Company*

*Jones County*

*(563) 485-2762*

Horsepower, a white-hulled spring oat, developed by the South Dakota Agricultural Experiment Station released in 2012. Horsepower has a high yield potential and outstanding strong straw strength. It has a short plant height, early-medium maturity, and an average test weight. Horsepower is resistant to local races of crown rust, moderately resistant to smut and barley yellow dwarf virus, and moderately susceptible to stem rust. Horsepower application for PVPA is pending.

## Natty

*Sponheim Sales and Service Inc*

*Mitchell County*

*(641) 201-4225*

Natty was developed by South Dakota Agricultural Experiment Station and released in 2014. It is an early maturing white-hulled variety. Natty is resistant to smut and crown rust, moderately resistant to barley yellow dwarf, and moderately susceptible to stem rust. Natty application for PVPA is pending.

## Reins

*Welter Seed & Honey Company*

*Jones County*

*(563) 485-2762*

Reins is an early maturing oat developed by the University of Illinois Agricultural Experiment Station and released in 2015. Reins has high test weight, good lodging resistance, and is a medium short variety. Reins is resistant to loose smut, tolerant to barley yellow dwarf virus, and moderately susceptible to crown rust. Reins application for PVPA is pending.

## Saber

*Letsche Seed Farm Inc. Plymouth County (712) 376-4309*

Saber is an early maturing oat developed by the University of Illinois Agricultural Experiment Station. Saber is tolerant to barley yellow dwarf virus, is susceptible to loose smut, and is moderately resistant to moderately susceptible to crown rust. Saber is a PVP title V protected variety.

## Saddle

*Petersheim, Daniel Mitchell County N/A*  
*Epley Brothers Butler County (319) 885-6293*

Saddle oat is a white-hulled, spring oat developed by the South Dakota Agriculture Experiment Station and released in 2018. Saddle is an early maturing variety with high yield potential and average test weight. Saddle is resistant to smut and crown rust, and is moderately resistant to barley yellow dwarf virus, and is susceptible to stem rust. Saddle application for PVPA title V is pending.

## Shelby 427

*Welter Seed & Honey Company Jones County (563) 485-2762*  
*Sterler Seed Farm Osceola County (712) 261-1645*

Shelby 427 oat is a white-hulled, spring oat developed by the South Dakota Agriculture Experiment Station and released in 2010. Shelby 427 is an early maturing variety with a superior grain yield and test weight. Shelby 427 is a PVP title V protected variety.

## Streaker

*Taylor Seeds O'Brien County (712) 261-2345*

Streaker is a hull-less spring oat developed by the South Dakota Agricultural Experiment Station and released in 2009. Streaker is a multi-purpose hull-less variety that may be used for forage or grain. Streaker is moderately resistant to crown rust. Streaker is a PVP title V protected variety.

## Warrior

*Wells Inc. Van Buren County (641) 680-7671*

Warrior is a white oat variety developed by the South Dakota Agricultural Experiment Station and released in 2019. Warrior is medium in both maturity and height with excellent straw strength. It is resistant to crown rust, moderately resistant to smut and moderately susceptible to barley yellow dwarf virus. Warrior has high yield potential. Warrior application for PVP is pending.
