Rye

ND Gardner

<i>Dooley Ag. Stewardship Inc</i>	<i>Marshall County</i>	<i>(641) 488-2217</i>
<i>Welter Seed & Honey Company</i>	<i>Jones County</i>	<i>(563) 485-2762</i>

ND Gardner was developed by the NDSU Carrington Research Extension Center agronomy program. ND Gardner is a very early maturing winter rye, 6 days earlier to heading than ND Dylan. It is winter hardy, tall and has good early season vigor and growth. ND Gardner has average seed yield and test weight with small seed size. It exhibits resistance to wheat leaf rust and is moderately susceptible to rye rust. This variety is intended for cover crop and forage applications.

Oats

Deon

Welter Seed & Honey Company *Jones County* *(563) 485-2762*

Deon is a high yielding spring oat with overall good agronomic traits and released by the Minnesota Agricultural Experiment Station in 2011. Deon has resistance to crown rust, smut, and barley yellow dwarf virus. Deon is a PVPA protected variety.

Horsepower

Cornelius Land & Cattle LLC *Jackson County* *(563) 672-3463*
Sterler Seed Farm *Osceola County* *(712) 261-1645*

Horsepower, a white-hulled spring oat, developed by the South Dakota Agricultural Experiment Station released in 2012. Horsepower has a high yield potential and outstanding strong straw strength. It has a short plant height, early-medium maturity, and an average test weight. Horsepower is resistant to local races of crown rust, moderately resistant to smut and barley yellow dwarf virus, and moderately susceptible to stem rust.

Reins

Welter Seed & Honey Company *Jones County* *(563) 485-2762*

Reins is an early maturing oat developed by the University of Illinois Agricultural Experiment Station and released in 2015. Reins has high test weight, good lodging resistance, and is a medium short variety. Reins is resistant to loose smut, tolerant to barley yellow dwarf virus, and moderately susceptible to crown rust.

Rushmore

Epley Bros Hybrids Inc *Butler County* *(319) 885-6293*

Rushmore is a new oat cultivar developed by South Dakota State University oat breeding program and released by the South Dakota Agricultural Experiment Station in 2019. Plant height is similar to Hayden with improved lodging resistance over Hayden. Rushmore is resistant to moderately resistant to crown rust, and moderately resistant to BYDV and smut.

Saddle

Sponheim Sales & Services *Mitchell County* *(641) 201-4225*
Andrew Yoder *Decatur County* *(641) 414-9327*
Welter Seed & Honey Company *Jones County* *(563) 485-2762*
Hermann Hybrids *Delaware County* *(563) 920-8936*
Sterler Seed Farm *Osceola County* *(712) 261-1645*

Saddle oat is a white-hulled, spring oat developed by the South Dakota Agriculture Experiment Station and released in 2018. Saddle is an early maturing variety with high yield potential and average test weight. Saddle is resistant to smut and crown rust, and is moderately resistant to barley yellow dwarf virus, and is susceptible to stem rust. Saddle application for PVPA title V is pending.

Shelby 427

Welter Seed & Honey Company

Jones County

(563) 485-2762

Wells Inc

Van Buren County

(641) 680-7671

Shelby 427 oat is a white-hulled, spring oat developed by the South Dakota Agriculture Experiment Station and released in 2010. Shelby 427 is an early maturing variety with a superior grain yield and test weight.

Warrior

Andrew Miller

Pottawattamie County

(712) 520-1886

Warrior is a white oat variety developed by the South Dakota Agricultural Experiment Station and released in 2019. Warrior is medium in both maturity and height with excellent straw strength. It is resistant to crown rust, moderately resistant to smut and moderately susceptible to barley yellow dwarf virus. Warrior has high yield potential. Warrior application for PVP is pending.
